

New Interactive Dashboards for NIH and NSF Awards

The WashU Research Analytics team has developed two new dashboards for the suite of extramural funding tools, [Insights](#)*.

NIH Study Sections

Designed to assist collaboration, the new NIH Study Sections dashboard enables faculty to search WashU's NIH-awarded projects by institute and the study section that reviewed and scored the grant application.

NSF Projects

Navigate NSF-awarded projects to WashU PIs by Directorate, Division, PI name, or project title keyword. The dashboard can also filter directly to career awards.

To access these and other interactive dashboards, visit the Research Analytics site at researchanalytics.wustl.edu.* Research Analytics is a joint venture between the Office of the Vice Chancellor for Research and the School of Medicine. Please contact [Blake Fuhler](#) with any questions or suggestions for *Insights*.

* Access requires a WUSTL key.
