

## Research Storage Project: Research Data Storage Seminars

All researchers at Washington University are invited to the Research Data Storage Seminars to learn about the upcoming University funded data storage available to all researchers at no cost. This project will provide *up to 5 terabytes of storage*.

There will be an opportunity to apply for participation in the pilot testing and become an early adopter.

Instructor-led seminars are being offered by the Research Storage Project and the Research Infrastructure Services (RIS) Department. Please select one of the enrollment options below to sign up via Learn@Work for one of the seminars.
