

RESEARCH NEWS

 Washington University in St. Louis

The Departments of Surgery, Medicine and Pediatrics, Mid-America Transplant Services and The Foundation for Barnes Jewish Hospital have provided funds to support research studies in transplantation research at Washington University.

Grant funding will be for one year. Two grants will be awarded. Awards will be \$50,000 each.

The grant is aimed to support Washington University faculty at the Assistant or Associate Professor level, who are conducting basic / translational or clinical outcomes research in transplantation. Particular emphasis will be paid to the potential to gather data that would facilitate application for extramural funding. Applications from faculty, who have not been directly involved in transplantation research to date, are encouraged.

Deadline: Monday, April 16, 2018

Start date: July 1, 2018

See attached for guidelines and instructions.
