

Important Updates Regarding the National Science Foundation

The National Science Foundation (NSF) is pleased to announce that beginning on April 30, 2018, proposers will be able to prepare and submit full, research non-collaborative proposals in Research.gov. The initial release of this new Research.gov capability will run in parallel with existing FastLane proposal preparation and submission capabilities, so proposers can choose to prepare and submit full, research non-collaborative proposals in Research.gov or in FastLane starting on April 30, 2018.

- Visit this page on research.gov for additional information on [preparing and submitting full, research non-collaborative proposals in Research.gov or FastLane](#)

On March 26, 2018, the National Science Foundation (NSF) is introducing a new centralized and streamlined account registration process in Research.gov for the research community that will provide each new user with a single profile and unique identifier (i.e., NSF ID) for signing in to FastLane and Research.gov for proposal and award activities.

- Visit this page on research.gov for additional information on the [streamlined NSF account registration process](#)
