

## TL1 Translational Sciences Postdoctoral Program

### *Request for Applications*

The goal of the of the TL1 Translational Sciences Postdoctoral Program (TSPP) is to demystify the process of commercialization of new technology/translational discoveries by learning how to move projects to the next stage of commercialization and how to establish value-creating milestones, costs, and timelines. The TL1 TSPP will engage courses and mentored experiential learning experiences to complement research training and provide core innovation and entrepreneurship skills.

### RESEARCH PROJECTS

Applicants will choose one of three main areas of focus:

- Entrepreneurship
- Research Innovation and Technology Transfer
- Dissemination and Implementation

The program has the broad ability to include the following types of research projects:

- Late-stage preclinical
- First-in-human
- Clinical
- Translational
- Patient-oriented
- Population health and community engagement
- Biomedical informatics

### PROGRAM BENEFITS

- Monthly stipend
- Health insurance
- Tuition funding for required courses
- Travel to national meetings
- Multidisciplinary seminars
- Mentorship team
- Externship opportunities

### APPLICANT ELIGIBILITY

- Doctoral degree in biological, health, or allied health sciences
- US citizen, non-citizen national, or permanent resident
- Support of a program-approved mentor
- Ability to commit full-time effort to the program

The standard NIH citizenship requirement does apply to this program. Funding consistent with [current NIH postdoctoral stipend levels](#) is available to trainees.

### PROGRAM LEADERSHIP

Jay Piccirillo, MD, TL1 Program Director  
Ana Maria Arbelaez, MD MSCI, TL1 Program Co-Director  
Susan Stark, PhD, TL1 Program Co-Director  
Adisa Kalkan, TL1 Program Manager
