

Siteman Cancer Center Protocol Review and Monitoring Committee - Updated Policies & Procedures

The Siteman Cancer Center Protocol Review and Monitoring Committee (PRMC) has updated its policies and procedures! The revised document may be found on the [Siteman Cancer Center Protocol Office website](#), along with a summary of operational changes.

Please note that the document includes changes relating to:

- non-human subjects research determination requests
- single patient studies
- institutional studies with documented approval from an SRC at an NCI-designated cancer center
- significant amendments
- studies that are IRB exempt
- studies being reviewed by external central or commercial IRBs
- timeline for response to PRMC review letters
- the continuing review process
- study accrual monitoring
- the PRMC closure process

Please do not hesitate to contact Stephanie Myles (314-747-4223, slmyles@wustl.edu) with any questions about the new version of the policies and procedures.
