

Good Clinical Practice (GCP) Training

Hosted by the Office of the Vice Chancellor for Research (OVCR)

Presentation by

Andrea M. Morris

Manager, Human Research Quality Assurance Program (HRQA)

September 18, 2019

9 - 10:30 a.m.

Eric P. Newman Education Center

Main Auditorium (lower level)

Registration is required [via Learn@Work](#).

1 ½ contact hours available

Washington University's [Good Clinical Practice Policy](#) requires all investigators and staff who are engaged in the conduct, oversight, and/or management of clinical trials be trained in Good Clinical Practice (GCP).

This 1 ½ hour in-person session satisfies the requirements for initial and/or refresher training, which is required every 3 years.

Other methods of completion include ([see the GCP Registration Guide](#)):

- Complete a CITI GCP course online (approximately 4-6 hours to complete)
- Complete a qualifying NIH GCP training course online (approximately 4-6 hours to complete)
- Attend a WUSTL-sponsored instructor-led GCP training now offered semi-annually beginning Fall 2020 (1 ½ hours)

Email ovcrinfo@wustl.edu with questions concerning the Education in Good Clinical Practice, and your message will be forwarded to the appropriate office(s).

This in-person training complies with the expectations set by the NIH's National Center for Advancing Translational Sciences (NCATS) for GCP training for CTSA Consortium Hubs and meets the minimum criteria for International Council on Harmonization (ICH) GCP E6, R1 and R2 training including: GCP Overview and Definitions, the Principles of ICH GCP, IRB/Investigator/and Sponsor Responsibilities, Clinical Trial Protocol and Protocol Amendments, Investigator Brochure and Essential Documents for the Conduct of Clinical Trials.
