

ICTS Precision Medicine at Venture Café Survey

Have you ever thought about taking your research to market?

The goal of [ICTS Precision Medicine Thursdays at Venture Café](#) is to connect and facilitate interactions between ICTS investigators, entrepreneurs, investors, biotech companies and the St. Louis community to share insights and ideas in molecular medicine, health technology, diagnostics, and interventions, with an emphasis on taking findings from the research setting to market. The ICTS hosts a session on the third Thursday of the month at 4 p.m., currently virtually, and previously in the Cortex district accompanied by food/drinks.

Please take this [brief survey](#) to help us identify how we can best serve the WashU community through our Venture Café collaboration. **Participants will be entered into a drawing to win 1 of 3 \$20 Amazon gift cards.** You must provide your name and email address to be entered into the drawing.
